Foley Bros. & Co., of this city, have been awarded the contract for the plumbing in the new hotel. The supplies are to be furnished by the J. L. Mott iron works, of New York. One of the directors of the company which is building the hotel said iast night that the plumbing would be the firest of its kind in the world. The representative of the Mott company says that up to this time the finest hotel plumbing in the country is in the Broad Water House, a summer resort hotel near Helena, Mont. NO CREWDS YET GOING TO BUFFALO AND LOWER RATE MAY BE MADE.

Rumor that President Felton Is to Retire-Future of the Clover Leaf-General Railway News.

The management of the Pan-American exposition at Buffalo is coming to the belief of many of the passenger officials prevails that if passenger officials expect to make a good showing in revenue this summer excursion rates must be made even as low as those made in years past to

Buffalo being practically the same distance. A passenger official said yesterday: "The roads will not be slow to act should the reports from agents throughout the country recommend a further reduction. As warm weather seems to have come, it may give a fresh impulse, say passenger men, to reduction will doubtless be made, as the roads have gone to great expense to prepare for carrying this business, and while

Future of the Clover Leaf.

It seems well settled that the Vanderbilts have secured control of the Toledo, St. Louis & Western and will make it the Western outlet for the Michigan Central, reaching St. Louis over it. It has been generally believed that the Vanderbilts have had their eye upon the property for some time past, as a possible outlet for the Mich-Igan Central to the Southwest. If it has been acquired at this time the supposition is that it will be used for that purpose. IN THE CASE OF DE POY The addition of the Clover Leaf will be a valuable one for the Michigan Central, as it will enable that road to compete on an equal footing, as far as St. Louis, at least, with the Wabash, which has become an road extends, on what should be a straight course, from Toledo to St. Louis, its lines being 450 miles in length. The total liabilities upon this property amount to about \$26,000,000, being divided into \$11,250,000 common stock, \$5,805,000 preferred stock, and \$5,000,000 funded debt. In addition to the This Time Judge Leathers Will Pass fixed charges being ruinous the road has been only a moderate earner until lately, when it was taken hold of by new parties.

The first ten days of May there were handled on the Big Four lines proper 44,226 loaded cars, an increase over the corresponding period last year of 3,273; on the Peoria & Eastern, 5,903 loaded cars, an increase, this month, of 421. It is now three years since through serv-

The Big Four has several hundred men at work between Marlon and Berea, constructing forty miles additional second track between those points. This work will be completed in sixty days, when, of the one hundred miles from Marion to Cleveland, eighty miles will be double track and the other twenty will probably be so improved before November.

General passenger agents of the trunk lines met in New York yesterday to discuss, among other things, the request of the managers of the Pan-American exposition for a further reduction of rates to and from Buffalo. Representatives of several of the leading roads said before the meeting that it had practically been settled that o further concessions would be allowed. The office of assistant general passenger agent of the Baltimore & Ohio Southwestern Railroad was abolished with the death of the incumbent, George E. Warfel, of Danville, and F. D. Gildersieeve, who for five years has served as city ticket and passenger agent for the road in St. Louis, has been appointed to the newly created office of district passenger agent, with headquarters at St. Louis.

B. L. Winchell, president of the Kansas City & Memphis road, returned to Kansas City, from St. Louis, yesterday, where he held a conference with B. F. Yoakum, prestdent of the St. Louis & San Francisco Railroad. "The general offices of the Memphis will probably not be removed to St. Louis before Sept. 1," said President Winchell. 'More than one-half of the employes of the Memphis will be retained when the new organization goes into effect."

Experts in maintenance of way departments who have recently ridden over the Wabash line express surprise over its excellent condition.
